

JNANESH BOPANNA A S

Data Analyst | AI & ML Graduate | SQL • Power BI

bopannasomz@gmail.com | Bangalore, India | GitHub | LinkedIn | Portfolio

SUMMARY

AI & ML Engineering Graduate (2026) with hands-on experience in Data Analytics, SQL, Python, Power BI, Tableau, Excel, and Generative AI for data analytics. Experienced in data cleaning, KPI analysis, trend analysis, anomaly detection, scenario modeling, and interactive dashboard development through a Data Analyst internship at iRobo Automation and end-to-end analytics projects. IBM Data Analytics Professional Certificate holder skilled in using GenAI-assisted analysis, prompt engineering, and data-driven techniques to transform complex datasets into actionable business insights.

EXPERIENCE

Data Analyst Intern | iRobo Automation Pvt. Ltd.

February 2026 – May 2026

- **Data Cleaning & Analysis:** Cleaned, transformed, and validated structured datasets using SQL and Excel, improving data consistency and achieving 100% validation accuracy across reporting datasets.
- **Power BI Dashboards & KPI Tracking:** Built and optimized interactive Power BI dashboards to track 10+ operational KPIs, trends, and performance metrics, enabling faster data-driven reporting and decision-making.
- **Insights & Workflow Optimization:** Performed EDA and anomaly detection to identify operational trends and root causes, delivering actionable insights while standardizing weekly reporting workflows to improve reporting efficiency and consistency.

PROJECTS

Lead Conversion Analytics | Multi-Variable Lead Conversion Analysis and ROI Optimization

- **Marketing & Conversion Analysis:** Analyzed a 3,000+ lead dataset to evaluate conversion rates, channel performance, and demographic drivers, identifying Google Search at 9.91% vs. Google Content at 4.07% and key factors influencing lead quality.
- **BI & ROI Optimization:** Built a 3-page interactive BI suite with KPI dashboards, conversion funnels, and state-level heatmaps, plus a What-If ROI Simulator that revealed a 37.4% lead-volume decline and \$28.2K revenue loss when targeting was narrowed to achieve a 10.26% closed rate.
- **Tools:** Power BI | Excel | Gen AI

SignTranslate AI | AI-Based Hand Sign Language Translator

- **Real-Time Sign Language Translation:** Developed a real-time web-based sign language translation system using Node.js, Express.js, Socket.IO (WebSockets), and REST APIs, enabling low-latency text-to-sign animation and real-time communication.
- **Scalable Application Architecture:** Designed a fault-tolerant client-server architecture with error handling and an accessible, responsive UI optimized for desktop and mobile platforms.
- **Tools:** HTML/CSS | Node.js | JavaScript | Express.js | Socket.IO

Stock Financial Extraction Engine | Python-Based Stock Data Extraction & Financial Trend Visualization

- **Automated Financial Data Pipeline:** Developed an end-to-end Python data extraction and web scraping pipeline using Pandas, BeautifulSoup, requests, and yfinance to collect and preprocess stock price and financial data for Tesla (TSLA) and GameStop (GME).
- **Financial Trend Visualization:** Cleaned and structured time-series datasets, handling nulls and formatting inconsistencies, and built Matplotlib dual-axis visualizations to compare historical stock prices with quarterly revenue trends.
- **Tools:** Python | Pandas | Matplotlib | BeautifulSoup

Stack Overflow Survey Dashboard | Python-Based Stock Data Extraction & Financial Trend Visualization

- **Developer Technology Analysis:** Analyzed the Stack Overflow Developer Survey dataset using Google Looker Studio to examine technology adoption, cloud platform preferences (AWS/Azure), web frameworks, and global developer demographics.

- Interactive BI Dashboard: Built an interactive dashboard with demographic and technology insights, highlighting 25–34 year olds as 41.3% of respondents and enabling exploration of developer trends across multiple technology categories.
- Tools: Google Looker Studio | Google Sheets

CERTIFICATIONS

- IBM Data Analyst Professional Certificate – IBM/Coursera
- SQL for Data Science – UCDavis/Coursera
- AI Foundational Certificate – Infosys Springboard
- Data Visualization and Dashboards with Excel and Cognos – IBM/Coursera

SKILLS

Programming	Python, SQL, C
AI & ML	Machine Learning, Generative AI, Prompt Engineering
Data Visualization & BI	Power BI, Tableau, Google Looker Studio, IBM Cognos
Spreadsheet & Data Analysis	Microsoft Excel, Google Sheets, Data Cleaning, Pivot Tables, VLOOKUP
Soft Skills	Problem Solving, Critical Thinking, Technical Communication, Data-Driven Strategy, Team Leadership

EDUCATION

Coorg Institute of Technology	2022 – 2026
Bachelor of Engineering (B.E), Artificial Intelligence and Machine Learning	GPA: 8.42 / 10
St. Joseph’s Pre University College	2020 – 2022
11th and 12th Grade, PCMB	Grade: 83.5%
St. Joseph’s School, CBSE	2017 – 2020
High School	Grade: 84.2%

EXTRA-CURRICULAR ACHIEVEMENTS

- **VTU State Hockey Team Captain & Player:** Captained the CIT Hockey team to victory in the VTU Interzone State Level Tournament (2025).
- **Multi-Sport Athlete:** 4-Time VTU Inter-Zone Hockey Championship Winner (2023, 2024, 2025, 2026); Winner of VTU Mysore Zone Football Tournament (2024).
- **Leadership & Community:** Board of Directors(2024-2025), Rotaract Club Sergeant-at-Arms – Directed team initiatives, organized student events, and coordinated cross-functional activities.
- **AVISHKAR 2025:** Project Exhibition, 2nd Position for the project entitled AI Based Hand Sign Language Translator.
- **Vidwath Quiz 3.0, 2025:** Intra College Quiz Competition, 1st Place.
